

CALL FOR EXPERTS to join the newly created Working Groups CLC/TC 210/WG15 and CLC/TC 210/WG16

DEADLINE: 3 May 2019

CLC/TC 210 adopted unique approaches to clear issues hindering citations under EMCD (2014/30/EU) and RED (2014/53/EU) by setting- 3 working groups working on specific aspects hindering citation in the OJEU

- CLC/TC 210/WG 14 'Formulation of Annex ZZs for CLC/TC 210 documents falling under the EMCD' - convenor Mr Klaus-Peter Bretz – dealing with short/medium term solution for 80-80 rules by introducing improved/re-aligned Annex ZZs in accordance with EC's guidance.
- CLC/TC 210/WG 15 'Formulation of Horizontal Guidance to deal with 80/80 rule to fulfil the EC/CCMC Long-term plan'. - convenor Mr Frank Deter – by developing a horizontal guidance document, i.e. home-grown standard/guidance, to deal with 80/80 issues under the long term plan, and
- CLC/TC 210/WG 16 'EMC Immunity Performance Criteria' - convenor Mr Stephen Colclough – to identify all TC 210 standards where immunity criteria are used and to prepare proposals for alternative definitions of immunity performance criteria to ensure legal acceptability in standards proposed for listing in the EU Official Journal against the EMC Directive and the Radio Equipment Directive

The 'Call for experts' for both [CLC/TC210/WG15](#) and [CLC/TC210/WG16](#) are now open.
