

Bibliography

References contained in recommendations (i.e. through “should” clauses)

The following documents are referred to in the text in such a way that some or all of their content, although not requirements strictly to be followed, constitutes highly recommended choices or course of action of this document. Subject to national regulation and/or any relevant contractual provisions, alternative standards could be used/adopted where technically justified. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

EN 1993-1-5:2024, *Eurocode 3 — Design of steel structures — Part 1-5 : Plated structural elements*

EN 1993-1-8:2024, *Eurocode 3 — Design of steel structures — Part 1-8: Joints*

EN ISO 6892-1, *Metallic materials — Tensile testing — Part 1: Method of test at room temperature (ISO 6892-1)*

References contained in permissions (i.e. through “may” clauses)

The following documents are referred to in the text in such a way that some or all of their content, although not requirements strictly to be followed, expresses a course of action permissible within the limits of the Eurocodes. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

EN 10143, *Continuously hot-dip coated steel sheet and strip — Tolerances on dimensions and shape*

References contained in possibilities (i.e. “can” clauses) and notes

The following documents are cited informatively in the document, for example in "can" clauses and in notes.

CEN/TR 1993-1-103, *Eurocode 3 — Design of Steel Structures Part 1-103: Elastic Critical Buckling of Members*

EN 1994 (all parts), *Eurocode 4: Design of composite steel and concrete structures*

EN 10025 (all parts), *Hot rolled products of structural steels*

EN 10088 (all parts), *Stainless steels*

EN 10149 (all parts), *Hot rolled flat products made of high yield strength steels for cold forming*

EN 10219 (all parts), *Cold formed welded structural hollow sections of non-alloy and fine grain steels*

EN 10268, *Cold rolled steel flat products with high yield strength for cold forming — Technical delivery conditions*

EN 10346, *Continuously hot-dip coated steel flat products for cold forming — Technical delivery conditions*

EN 14509-1,⁴ *Factory-made double skin metal faced insulating sandwich panels — Part 1: Self-supporting applications*

EN 14509-2,⁵ *Double skin metal faced insulating panels — Factory made products — Specifications — Part 2: Structural applications — Fixings and potential uses of stabilization of individual structural elements*

EN 14782, *Self-supporting metal sheet for roofing, external cladding and internal lining — Product specification and requirements*

EN 15512, *Steel static storage systems — Adjustable pallet racking systems — Principles for structural design*

EN ISO 1478, *Tapping screws thread (ISO 1478)*

EN ISO 10684, *Fasteners — Hot dip galvanized coatings (ISO 10684)*

EN ISO 12944-2, *Paints and varnishes — Corrosion protection of steel structures by protective paint systems — Part 2: Classification of environments (ISO 12944-2)*

ISO 4997, *Cold-reduced carbon steel sheet of structural quality*

EAD 330046-01-0602, *Fastenings Screws for Metal Members and Sheeting*

EAD 330153-01-0602, *Cartridge fired pin for Connections of thin gauge Steel Members and Sheeting*
