

Standards + Innovation Awards

European Standardization

Standards+Innovation Awards 2022

Standards+Innovation Awards acknowledge and celebrate the important contributions of research and innovation to standardization.

Nominations

Nominations for these annual awards are presented by the CEN and CENELEC national members.

Awards Categories

- **European research project** presented to a European research / innovation project that successfully contributed to standardization.
- **Individual researcher/innovator** presented to an individual who successfully introduced her/his research outcome or innovation into standardization, thereby creating impact for her/his work.
- **Young researcher** presented to an individual student based on the work done for academic theses, doctoral dissertations or other university research project addressing standardization.
